Wayanad, Kerala

SUMMARY

I am a customer-focused software engineer with excellent communication skills and strong expertise in multiple technical platforms. I am adept at understanding and addressing the needs of both clients and employers, leading to the development of highly functional and user-friendly applications. I excel in hands-on development and effectively lead software teams to deliver quality solutions.

WORK EXPERIENCE

Neopraxis Innovations

Kalpetta, Wayanad

Full stack Python Django Developer

04/2023 - Present

- Integrated third-party applications and services to enhance tool capabilities.
- Enabled extensive customization options for BigCommerce stores, including themes, layouts, and functionality.
- Integrated APIs and Webhooks to enhance SaaS application functionality, enabling seamless data exchange and improving overall system performance.
- Developed and maintained payment workflows, including subscription billing, one-time payments, and invoicing, using Stripe's Checkout, Elements, and Billing services.

Soften Technologies

Kadavanthra, Ernakulam

Junior Developer in Python Django

07/2022-02/2023

- Developed and managed a Personal Data web application using the Django framework.
 - Created backend servers and databases for the software application.
 - Implemented role-based access control (RBAC) to ensure secure, granular permissions for different user types (e.g., administrators, managers, and staff).
-

EDUCATION

Government Polytechnic College Meppadi

Meppadi Wayanad

Diploma in Computer Engineering

08/2019 - 06/2021

Government V.H.S.S Vellarmala

Vellarmala Wayanad

Higher Secondary in Computer Science

06/2017 - 05/2019

Government High School Vellarmala

Vellarmala Wayanad

Secondary School Education

06/2016 - 05/2017

LANGUAGES

English , Malayalam ,Hindi

STRENGTHS

Knowledge Sharing

Ability to share knowledge and insights within the developer community.

Adaptability and Time

Adaptable and capable of managing time effectively in fast-paced environments.

Collaboration

Strong interpersonal skills with an empathetic approach to team collaboration.

SKILLS

- Programming Languages: Python, JavaScript, TypeScript
 - Frameworks & Libraries: Django, React.js, Bootstrap, Tailwind CSS, Flask
 - Databases: PostgreSQL, SQLite3
 - Tools & Technologies: Stripe, RabbitMQ, Redis, Firebase, WebSockets
 - Development Practices: API Integration, Webhooks, Role-Based Access Control (RBAC), SaaS Development, Full-Stack Development
 - Version Control: Git, GitHub
 - Others: Agile methodologies, team collaboration, troubleshooting, debugging, and technical documentation
-

PROJECTS

Online Home Rental Service

A web platform aimed at simplifying residential rentals by connecting landlords with potential tenants.

- The front-end, built with Bootstrap, offers an interactive and user-friendly interface for browsing property listings.
- The back-end, using Python and SQLite3, manages property information, user data, and rental transactions.
- The platform streamlines the rental process, making it easier and more accessible for both landlords and tenants.

My Data

A secure platform that allows citizens to access their documents online from any source.

- The platform ensures users can securely access various certificates (e.g., mark lists, identity documents, licenses, medical records) without the need for physical copies.
 - Built with Django and PostgreSQL, the platform enhances data protection and ensures easy accessibility from anywhere.
-

PASSIONS

Open-source Contributor

Active contributor to open-source projects on GitHub and have developed personal Python projects.

Technical Writer

Authored technical blog posts and tutorials on development topics.
